SIZE CHART - MEN

HOW TO MEASURE

UPPER MEASUREMENT

CHEST : Place the tape measure under your arms at the fullest part of your chest, wrap around your body until your fingers meet and mark the measurement.

SELECT YOUR SIZES : Use the size chart below to choose your size.
For example - if your chest measurement is 100cm, then a Medium size shirt is the most suitable choice for you.

CRICKET

At TYKA, aesthetics and performance are two areas we pride ourselves in, ultimately providing a clothing range that makes you look and feel like the professionals. Because of these aims, we have released the range we developed with "IPL teams and Somerset CCC".

We regularly receive feedback from clubs and counties indicating the necessity to emphasise unique club identity. With that in mind, we have created our range, which allows clubs to utilise a variety of designs and products that we provide to our professional sides. This optimises the ability to customise clothing to meet your clubs needs. We have tried to capture this in the catalogue, but for the full collection of our customisation range that is available please visit - www.tyka.com.au/kitbuilder

"Our club identity is very important to the players and Tyka enabled us to emphasise the Somerset branding on each product rather than just having something off the shelf with little room to customise. The ordering process was very easy and efficient with deliveries arriving on time as scheduled. Even when we needed some emergency product for new players they pulled out all the stops to get items to us in record time." - **Jason Kerr - First Team Bowling Coach**

Working with Tyka in 2016 to design the Western Storm clothing range was a really enjoyable experience. From the early stages of looking into kit designs, to customising kit for the perfect fit, Tyka were both knowledgeable and supportive through the process. Nothing was too much trouble in helping us get to a range of kit that both staff and players were really happy with. The kit looks great but is also fantastic quality – I wouldn't hesitate in recommending Tyka"
